

ABOUT LIFE

Everyday we meet big or small problems. Sometimes we may think that life is about solving problems, overcome them or being overcome. Problems just like storms sometime make you dizzy while some wake you up from day dreams. Don't be pushed by your problems; be led by your dreams.

Life isn't about waiting for the storm to pass; it's about learning to dance in the rain. No matter how cruel life is to you, try to fight back and smile. Life is about losing and getting. You lose something while you get something. But don't take the losing-things so serious in mind, just cherish the things that you get, or you may lose them as well.

Everyone has his inherent ability (power or capacity) which is easily concealed by habits, blurred by time, and eroded by laziness.

In our daily work or in our life career, it's not the ability that comes in! It's the passion that counts! Passion is always the power that brings you success and happiness.

You're lucky enough to be different from everyone else. Don't change to be the same. Be true to who you are. Stop trying to please other people or be someone else. It's better to be an original version of yourself than an exact duplicate of someone else.
