

# AN ARTIFICIAL MEAT COMPANY MODERN MEADOW GOT A HUGE \$10 MILLION INVESTMENT FROM LI KA-SHING TO GROW ARTIFICIAL MEAT AND LEATHER IN THE LAB

Horizons Ventures  
Modern Meadow 1000

Giants in science and technology are focusing on artificial meat. So is Li Ka-shing. Recently, with great enthusiasm, he has invested \$10 million in Modern Meadow to help accelerate research & development and expand its facilities through his investment company

Modern Meadow Inc., 3D

Modern Meadow Inc., a startup located in Brooklyn, New York has announced that it can breed beef and leather in the vessels in the lab with bio-manufacturing engineering and 3D printing. In fact, in addition to beef, other red meat, fish and poultry can be produced with cells taken from animals via a noninvasive biopsy.
