

# BRIEF INTRODUCTION TO JAPAN

## 日本語 & JAPANESE 日本語

Located outside of the east coast of Asian continent, Japan is an island country in Pacific. Its territory consists of Hokkaido, Honshu, Shikoku, Kyushu these four large islands and over 3900 small islands. As a single nation-state, a constitutional monarchy is enforced, known as “the country of rising sun”. Since the late 1960s, Japan has been recognized to be the second strongest worldwide capitalist economic country.

Its ability of scientific research is the third largest in the world, but also the fourth largest exporter and fourth largest importer in the world. Japan is the developed countries where people have very high quality of life. It is the world’s richest and most economically developed and one of the countries with the highest standard of living.

Japanese is one of the main language used by the Japanese Nation and also the official language in Japan. Japanese belongs to adhesion language, whose sentence is formed by pasting the grammatical components into words. Grammatical components won’t change the original meaning of sentence, just express grammar functions.

The number of people who speak or use Japanese is not large, but Japanese is still very important because of its developed prosperous economy and advanced science and technology. According to related data, GDP in Japan appears -0.9% increase. However, nobody can deny its high status of economy, science and technology in the whole world.

There are 68 companies which were selected into The World's Top 500 Enterprises In 2011 by FORTUNE. Each new product or technology developed in Japan will be promoted into other countries or regions through various languages, such as English, Arabic, Chinese, French, etc. Meanwhile, if other countries would like to promote some products or technologies to Japan, their languages should be translated into Japan. What's more, the same to cultural communication and other activities.

Our company [CCJK](#) is the professional provider of languages translation service.
