

Our client:

Xufe is a free service that provides their clients with information for online casinos including reviews, ratings, information on jackpots and tracking of available online casino bonuses. It is the power of the community in sports betting, which is a tool for clever betting.

Requirements:

Our client was in need of a professional team who could help them to localize their casino website contents in simplified and traditional Chinese with high quality.

As the source files to be dealt with, they provided us with several word documents with instructions for what needs to be translated. The materials are basically casino industry specific terms and cannot be handled by the people without industrial experience.

The CCJK SOLUTION:

- 1.** We have selected the translators who have abundances of experience in casino and gambling translation to serve this project. And the members of this team are not only professional translators but also experts in the casino games for their mother tongues, with years of experience in [translating casino games](#). We always make sure that all aspects of the specific casino game, language and market are widely considered when translating our clients' casino materials.
- 2.** Before starting the translation, the translators have taken some time to see through all the instructions and the reference URLs in the documents, so they could get a better idea of what they need to translate.
- 3.** During the process of translation, they kept the questions they found in a query log and sent back to the client for feedbacks.

CCJK provides quality translations for the casino and gaming industries, and for online casinos. We have wide experience in localization of casino and betting sites into over 100 languages.

We provide the following casino translation services:

Sport Betting

Back Jack

Let it Ride
