

About the project:

This is an [English to Traditional & simplified Chinese translation](#) project. The client works in a multinational company who need us to help, translating some files about software & web. What makes CCJK a competitive team? As you may know, one of them is our first-class translation & localization services in IT industry.

About CCJK:

CCJK always stands out for its English into Asian language combinations, that is why we named ourselves CCJK, it is short for Chinese Simplified, Chinese traditional, Japanese & Korean. Ever since 2000, the past 13 years have also proved our extraordinary ability to offer 108+ language pairs services to our global clients in:

CCJK Solutions:

CCJK is both one of ATA member & GALA member. Besides, certified by ISO 9001:2008, strict TEP process will be carried for translation.

1. The original files will be audited by professional.
2. Project manager assign the project to suitable linguists with over 3 year of experiences & related background academic knowledge for translation
3. CCJK performed a rigid work process: The translated files will be assigned for a second reviewing.
4. According to clients' request, proofreading will be carried out.
5. Files will be imported into QA distiller to a log.
6. The required files will be packaged and delivered to our customer.
7. Follow-ups & feedbacks.

Take a look at how we helped our client by localizing their project for English language.

Feedback from Client:

We deliver the final file in time & in high quality. The client is satisfied with our work. Besides, he speaks highly of the CCJK solutions & quick turnaround. A log with instructions & descriptions to fault alarms is provided with delivery to our client because Chinese & other Asian languages are not supported by QA distiller. They show their thankfulness for added value.
