

About the project:

There is certain color processing software which refers to complex academic knowledge & need to be [localized into Traditional Chinese](#).

Challenge:

1. QA distiller doesn't support Asian languages & cause to many false alarms in its log.
2. It's an urgent project & delivery time will be only one business days.
3. It refers to complicated color processing background.

About CCJK:

Since 2000, based in Hong Kong & China mainland, CCJK began to providing its first-class language services around the world. The past 11 years have also proved our extraordinary ability to offer 108+ language pairs localization and translation services to a global audience in areas like:

CCJK Solutions:

CCJK always stands out for its English into Asian language combinations, that is why we named ourselves CCJK, it is short for Chinese Simplified, Chinese traditional, Japanese & Korean.

1. The translation materials will be audited.
2. Project manager assign to the best suitable linguists for translation. (the related experiences, specific field knowledge, etc.)
3. CCJK performed a rigid work process: Native editor with over 3-year experience will be assigned for a second reviewing.
4. According to clients' request, proofreading will be carried out.
5. QA Report and Query: translation files will be imported into QA distiller to a zero-genuine log.(For supported languages)
6. The required files will be packaged and delivered to our customer on time.
7. Follow-ups & feedbacks.
