

About the project:

The services including:

English to Simplified Chinese Translation

Our solution for language translation:

All translation tasks were finished by native translators with abundant experience. Furthermore, CCJK ran a strict TEP (Translation, Editing and Proofreading) by 3 different linguists to make sure of top quality. The client required CCJK Team to do a test before starting to translate the documents. Without taking any trial test, the client assigned us the project within a word count of 18,100. This was because the client and CCJK had deep mutual understanding with each other after good communication.

And the client promised that if the first translation project was well done, we would get more trustee documents to be translated in the near future. CCJK team delivered the translation file within 3 working days. The client was very impressed by our fast delivery time. And the client made some revisions towards our translation file and asked CCJK team to [translate one document into traditional Chinese](#). CCJK team responded in a few minutes and made the changes per the client's request. The client though the revised file was very useful.

About client:

As business becomes increasingly international, the challenges of retaining full and transparent oversight of diverse operations and investments intensify. Understanding and managing the local administration and reporting requirements in numerous territories is complex and distracts you from your key focus: managing your business.
