

WITT- Gasetechnik GmbH & Co KG is a manufacturer of gas-related equipment that meets the highest quality requirements. It began some 75 years ago with flashback arrestors for cutting and welding. **Facts & Figures:** **1.** Founded in 1945 **2.** Family business in 3rd generation **3.** Approx. 200 employees **4.** Located in Witten, Germany **5.** Global network of subsidiaries and partners **6.** Customers in more than 100 countries **7.** Products 'Made in Germany' **8.** Comprehensive quality management Today, WITT offers a complete range of gas safety and control equipment. These products include gas mixers, gas analyzers and metering systems, as well as package leak detection systems. With this wide array of products, WITT has developed from a two man business to a world market leader. The WITT headquarters are in Witten, Germany. More than half of the turnover comes from export. Still a family-owned business, WITT, through its subsidiary companies and partners, now operates worldwide. The requirements and demands of their customers are central to their activities. WITT is flexible, fast-reacting and strives to offer the best possible service. They enjoy long-term partnerships with customers and suppliers based on fairness. As a truly international company they embrace all cultures. **CHALLENGES:** WITT- Gasetechnik GmbH & Co KG has translation requests for the language combination of [German into Simplified Chinese](#) and the documents fall into two main categories: technical data sheets and general materials such as website content and press releases. The former are usually in the InDesign format while the latter often come in the Microsoft Word format. The challenges brought by this client's requests fall into the following aspects: **1.** This client has a high demand on the correct use of terms in the gas safety and control industry, hence a strict requirement regarding the translator's relevant industry background. **2.** The client herself has special language style preferences and it is not easy to catch it at first time cooperation as this matter is quite subjective. Translators will have to learn and get familiar with the style that the client is expecting. **3.** The client sometimes gives feedback or update instructions a long time after a project is finished, asking to do some extra revision on previous documents. **Read Also:** [How to say Happy New Year in German](#) **CCJK'S APPROACHES:** Based on the in-depth understanding of the challenges we face with this client's projects, CCJK put great efforts in the following aspects: **1.** We developed a glossary sheet from all the translations we have done and sent it to the client for approval. After that, the glossary has been implemented as a term base for each new project. **2.** We implemented two special steps throughout the translation process in order to improve our language. The first step is completed by translators who are professional in this technical domain, while the second step focuses on polishing the language. **3.** CCJK offers client-friendly services and strives to meet client's requirements as much as we can. Regardless of the time, we archive the project materials carefully and provide updates as demanded by the client. **BENEFITS:** **1.** The

glossary sheet we are maintaining and expanding is a valuable asset for the client, working out perfectly for all the following projects as well as ensuring consistency. **2.** The client is willing to give comments and opinions on how the language shall be polished and in the end is satisfied with the second step we have done. The final translations are fluent and comfortable to read yet with no sacrifice in the technical aspect. **3.** This can be seen as an important after-sales service for our client which greatly elevates the satisfaction degree from our clients and builds up CCJK reputation as a responsible [German translation services](#) supplier. **ABOUT CCJK:** Founded in 2000 and born for Internet, CCJK is a highly trusted professional e-services company supported by more than 12,000 talented linguists, engineers, designers and programmers who work as a super organized team.
