

GOOGLE GLASS ON THE BRINK OF SUCCESS AND FAILURE

Google Glass is now available for open booking in the United States. Anyone who is willing to spend \$ 1,500 can buy one. It does not matter if you have not noticed yet. More than two years ago, Google Glass was one of Google's most hyped products, but now it is already on the brink of failure.

Last week, Google Glass was available for open booking in the United States. Anyone who is willing to spend \$ 1,500 can buy one. It does not matter if you have not noticed yet. More than two years ago, Google Glass was one of Google's most hyped products, but now it is already on the brink of failure.

It is unclear how many people bought Google Glass last week, but there could not be a large number. Two years ago, that would have been unimaginable.

It is unclear how many people bought [Google Glass](#) last week, but there could not be a large number. Two years ago, that would have been unimaginable.
