

MOBILE APP TRANSLATION IN CCJK

Nowadays, the competition in the mobile phone market becomes more and more fierce. And the replacement rate of the mobile phone is beyond our imagination. Phone mobile applications, especially mobile games software has been more and more pro-gaze. To meet the needs of the customer, mobile App developers developed all kinds of Apps. To expand the business to global market, there is a great demand of translating and localizing them.

CCJK provide specialized [localization solutions for mobile APP](#). We have the resources to react promptly to the immediate needs of mobile App developers and the experience to help them develop integrated solutions for communication across the international markets.

We have a network of translators at our disposal that is rich in experience and diverse in its expertise. Translators have the linguistic capabilities to always maintain the message and sentiments of an original text, while at the same time tailoring a translation to a target audience by encompassing the distinct nuances and culture that surrounds every language.

In the case of addressing the mobile App developer' needs, CCJK will assign a dedicated team of translators, editors and DTP operators for each language so as to provide one stop solution to meet the client's challenges.

Our Services

Document Translation Services

Interpretation Services

Desktop Publishing Services

Video Translation Solutions

We follow the quality guidelines of American Translation Association (ATA) and each of the projects will be edited by a 2nd editor and proofread by a third party with profound economic and financial knowledge, hence high quality can be guaranteed.

In addition, we use Computer Aided Tool (CAT) to create and maintain a Translation Memory (TM) for the client's projects on long-term basis. Every translation unit will be saved in TM. One time translated, multi-time used. By creating TM, we charge fewer words as we discount both for repetitions and for similar words (75%-99% match), thus save the client's cost (at least 30%) while enhancing quality and consistency.
